

Heatizon Systems award winning floor warming products deliver radiant heating comfort to cold floors. Heatizon Systems ZMesh or Tuff Cable heating elements are designed to go under virtually all floor coverings, including carpet, wood, stone, marble and tile. Heatizon Systems provides the luxurious and comfortable radiant warmth of the sun to all of the occupants and contents of a home or building.

COMFORT

Feel the radiating warmth of the sun any time you desire. Heatizon's luxury radiant floor warming systems provide quiet, constant, and uniform heat to otherwise cold surfaces leaving them comfortable to the touch.

QUALITY

We have gone to great lengths to produce the longest lasting heating elements in the industry. The entire Heatizon system is solid state, has no moving parts to wear out, and has nothing that requires routine maintenance. Tuff Cable and ZMesh heating elements are the most durable available and are backed by a generous industry leading 25 year limited warranty.

EFFICIENT

Utilizing 100% of the energy to create heat, Heatizon Systems are incredibly energy efficient.

REPAIRABLE

Heatizon Systems award winning heating element, Tuff Cable and ZMesh, are easily repairable should they get accidentally damaged.

SAFE

Step out of your shower with peace of mind, knowing your wet floor is safely warmed with one of Heatizon Systems low-voltage radiant technologies that conform to the standards established by ETL, CSA and UL. All of Heatizon Systems low voltage products have computer technology to safely monitor your floor warming system day and night.

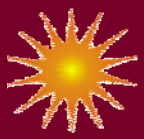

EASY TO INSTALL

All Heatizon Systems products have been designed for ease of installation.

VERSATILE

Heatizon Systems makes radiant floor warming products that fit any sized or shaped area, and to go under any floor covering or in concrete. Heatizon Systems also has radiant floor warming products designed to be installed in the joist space below the sub-floor.

Heatizon utilizes two heating element technologies in order to provide the safest, highest quality and longest lasting floor warming systems available world wide. ZMesh goes "on" something, while Tuff Cable goes "in" something.

TUFF CABLE

Z MESH
